What is ACM

About us

The Advancing Clean Mobility (ACM) Forum is a premier, high-level regional platform dedicated to rapidly advancing sustainable, low-emission transport systems across the Middle East and surrounding regions.

We unite policymakers, business leaders, innovators, and investors to:

Facilitate strategic dialogue.

Showcase cutting-edge technologies.

Promote actionable solutions that drive clean mobility forward.

The ACM Forum is the essential venue where the future of clean transportation is collaboratively, practically, and ambitiously shaped, whether you are driving innovation, developing infrastructure, or setting policy.

Our Core Values

Vision & Mission

Mission

To accelerate the transition to clean, sustainable, and inclusive mobility across the Middle East and beyond. We achieve this by fostering cross-sector dialogue, knowledge exchange, and hands-on engagement to explore scalable solutions, forge partnerships, and drive actionable strategies.

Vision

To be the leading regional platform shaping the future of clean mobility, enabling a smart, connected, and accessible zero-emission transport ecosystem for all.

Why Choose us?

Core Objectives

The ACM Forum is focused on achieving the following outcomes:

Foster Regional Dialogue:

Cultivate discussion on investment pathways, policies, and innovations for clean mobility.

Showcase Technology:

Present global and local leaders' best practices and emerging technologies.

Facilitate Partnerships:

Accelerate the deployment of clean transport solutions through cross-sector collaboration

Build Capacity:

Increase awareness and knowledge among industry professionals and stakeholders.

Develop Ecosystem:

Support a robust clean mobility ecosystem in the Middle East and neighboring regions.
